

Innovative Solutions.

pure 
SERVICES

This is our story

Our Team

At our core, we're one team with one collective goal and vision – to ensure New Zealand is pure and green. The team at Pure Services are genuine, likeminded individuals who share the same passion and work for the health of our environment and people.

Our Dream

Our ultimate mission is to continuously look to the future, finding groundbreaking solutions that will benefit New Zealand. Through our work, we want to ensure the safety of all Kiwis for generations to come.

Our Innovation

With an in-house research and development team, our people are always working on finding revolutionary cleaning solutions that benefit the environment, align with our values, and deliver the best results at the same time. We are pioneering and implementing the most effective technology that will get us to and beyond our dream.

Our Icon

History. Growth. Development. Evolution. We're humbled by our journey so far and we always remember our roots. Our icon is our connection with nature. It is organic and symbolizes both a butterfly (our legacy icon) and leaves, as in nature we are always looking to improve and grow in a sustainable way.

Our Environment

We have deep appreciation and respect for our natural environment, therefore, our priority is to find and use products that protect and boost our beautiful surroundings. We genuinely care – our backyard is never compromised.

One Pure Team One Green Dream

We're local... but we've got New Zealand covered.

We believe our team is what makes us great. We employ only the highly trained technicians to enable us to offer the widest range of cleaning services you will find anywhere.

What sets Pure Services apart is simple – we tackle the jobs no one else wants to!

- **Specialist Cleaning**
- **Building Soft Wash**
- **Spouting Cleaning**
- **Pest Control**

Spouting and downpipe cleaning

Our revolutionary system quickly and efficiently clears and cleans your gutters without the use of ladders.

Is your spouting overflowing?

Coming in to autumn, leaves, dirt and branches can block up external gutters. This can cause water to get into your home or overflow on to the path and windows below.

Sheds and Outhouses need attention too. They may be an "out of sight, out of mind" aspect of your home exterior, but neglecting this can lead to costly repairs.

Keeping in mind that safety is more important than clean gutters, our technicians are equipped with new machinery that can help identify causes of blocked gutters with the use of a camera and can then remove this without the use of a ladder! So before your household, woodshed, barn or shearing shed gutters get to this irreversible state give us a call to clean out your gutters.

Soft wash

Soft Washing is a “low pressure”, safe, eco-friendly alternative cleaning process that is ideal when a more gentle approach is required.

By utilizing our low pressure pump system, we are able to apply a customised cleaning solution to exteriors for the removal of mould, algae, dust, droppings, insect nests, cob webs and general dirt and staining.

Soft Washing is an extremely fast and low impact service which is ideal for exterior building cleaning whether it is residential or commercial. The ability to clean multi level and large areas quickly without the need for up-close, high pressure blasting will result in a longer lasting, more even finish without the dangers of paint or substrate damage.

Pure Services are experienced in Soft Washing and consider such things as plant and foliage protection, environmental discharge, pets, water containment and run off.

Soft Washing is the preferred cleaning method for such surfaces as:

- Residential and Commercial property washing
- Metal, Tile and Terracotta Roof Systems
- Canvas Awning and Shade sails
- Timber weatherboard, siding and older fragile paint systems.
- Modern architectural moldings and facades
- Mould and algae treatments

Asphalt maintenance

Pure Services asphalt repair and maintenance protects asphalt pavement surfaces from oxidation, weather, petrol and oil. If your pavement is left unmaintained and unsealed, it can lead to potholes and disrepair

We can help extend the life of your pavement.

Using industry leading sealant and crack repair we :

- Rejuvenate old asphalt
- Use environmentally friendly processes
- Apply the product quickly and easily
- Lengthen the life of asphalt
- Seal surface of asphalt
- Reduces water penetration
- Provide cost effective preservation product

Why choose Purezone?

- In residential and commercial cleaning applications it is completely safe and won't harm bare skin.
- O3 kills the bacteria that cause odours, viruses that cause illness, as well as breaks down bio matter on surfaces that provide the food for microbes.
- Contrary to some other cleaning and sanitizing solutions which can leave unwanted residue on the surface, Aqueous water will simply revert back to oxygen.

Ideal for:

- Hard Surface Sanitising
- Export Cleans
- Building Wash
- Pheromone Treatment
- Builders Cleans
- Exit Cleans
- Window Cleaning

PureZone - is applied through a softwash system which is ideal for exterior cleans whether residential or commercial. PureZone ozone kills the bacteria that causes odours and viruses that cause illnesses.

Do you have any unwanted visitors?

We provide a full range of pest control management solutions. From small residential units to large corporate buildings – we can tailor a management program for you.

We'll tackle those hard-to-reach exterior cleaning jobs and get your property shipshape on the outside too. Not only will your place look good, you could be avoiding expensive repair bills down the track.

Our services cover:

- Inspection
- Monitoring
- Baiting
- Spiders
- Rodents (rats and mice)
- Flies (including cluster flies)
- Fleas
- Borer
- Wasps
- Silver fish
- Bedbugs
- Ants
- Birds
- Cockroaches
- Possums

These are some of the intruders in our homes that can not only create an unsightly mess, but insects and rodents also spread bacteria and disease, threatening the health of our families.

Nowadays as a homeowner, there are restrictions on certain types of pest control methods. So if you're struggling to find a way to stop sharing your home with unwanted visitors, then give us a call and we can send our certified technicians out to give you some advice on how we would fix the issue.

Pest control specialists

We not only deal with infestations of rodents and insects but also offer ongoing programs to prevent re-infestation.

So, if you're struggling to find a way to stop sharing your home with unwanted visitors, then give Pure Services a call and we will send one of our fully licensed pest managers out to give you some advice on how to best fix the pest problems.

Nano glass protection

Balustrading

Pure Services Nanoprotect provides the perfect protection for glass balustrading. The invisible coating protects against corrosion and scratches as well as external pollutants like water, bird droppings and mineral deposits.

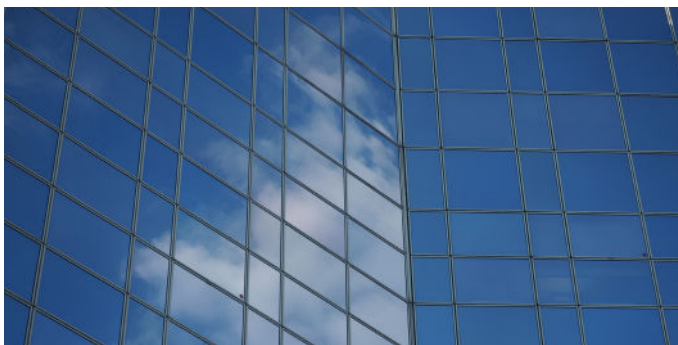

Windows and Doors

Nano Glass Protection improves cleaning by making it up to 90% easier to clean Hydrophobic coating and keeps your glass streak free at all times.

- **Suitable for new and old glass**
- **Protects against etching and staining from:**
 - » Hard water
 - » Lime scaling
 - » Soap scum

Shower Screens

Save time and money by applying nano protect to your shower glass. Applied once, the application makes grime, dirt and soap scum fare easier to clean as well as prevent build up.

Window cleaning

Pure Services has a portable water filtration system. When we clean the outside of your windows we are not just using water straight from the tap - this is loaded with minerals and it is these minerals that leave those pesky water spots on the glass which make the window look dirty.

By filtering the water, we remove all the minerals that would usually cause water spots and streaks. Not only is the filter great for cleaning windows it also doubles as a solar panel cleaner.

When your house has lots of windows, is multi-storied or off the ground, window cleaning can be a nightmare. Ladders are notoriously unstable on uneven ground and when you lean in to reach the windows or are wielding a long-handled brush, the dangers compound.

Even cleaning the interior and exterior windows of a medium-sized house is a big job that takes considerable time. Time, that you could be better spending on something else. Instead, call in the Pure Services window cleaning team who will quickly and safely remove the dust, dirt, streaks, and bird droppings.

By using professional window cleaning equipment and non-chemical cleaning products, Pure Services can give you a superior result. Plus, the products used repel dirt and dust, extending the interval between washes.

And, if you live outside of our franchise areas and have other cleaning or pest control services carried out at the same time, it becomes much more cost effective than having a technician come out for individual jobs.

Are you house proud but time poor?

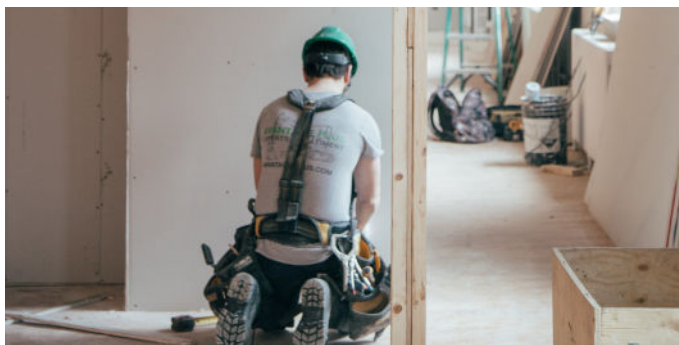

Like a clean and tidy house but simply can't find anyone who does it as well as you would like?

You need to meet the Pure Services professional house cleaning team!

When it comes to internal cleaning, the Pure Services team wins, hands down! Call us today to find out how a clean and tidy house can be yours tomorrow.

Our services cover:

- Oven cleans
- Builders cleans
- Exit cleans
- Window cleaning
- Ceiling cleaning
- Commercial kitchen cleaning

Internal cleaning services

Professional Cleaning Services

We use environmentally friendly cleaning products that leave no harmful residues. Our service can either be one-off or ongoing, and we liaise regularly with our clients to make sure you are happy with the work.

Professional Oven Cleaning

Standard and self-cleaning ovens, hobs and range hoods – and we won't forget the oven racks and trays, or the warming drawer, plus we'll clean underneath and behind your oven. We can even do the BBQ on request.

Window Cleaning

We deliver fast, effective, window cleaning for houses, rentals and commercial buildings. We leave your windows sparkling clean inside and out – even cleaning the frames!

Builders cleans (Private & Commercial)

The amount of dust and debris accumulated on a builders site can be unmanageable at times. Whether you are renovating or are handing over a new build – Pure Services offers competitive builders cleans that are tailored to your individual requirements.

We understand that homeowners are itching to occupy their new space as soon as possible so we are on hand with commercial grade equipment, ready to get the job done efficiently and thoroughly ensuring that the space really does look brand new in the timeframe that you require.

Do you have various textiles requiring a clean?

Our inhouse textile division is setup to clean all the large difficult items you are unable to clean. We can also remove mould!

Our services cover:

- Curtain Cleaning
- Blind Cleaning
- Sunshade and canopy cleaning
- Pram and stroller cleaning

Show your curtains and drapes some tough love

Are mouldy curtains your dirty secret? Let Pure Services make them look like new again.

At Pure Services we have developed a revolutionary new cleaning system to treat curtains, drapes and blinds while keeping shrinkage to the absolute minimum. This system came about due to a lack of cleaning providers able to provide a service that could clean curtains and remove mould while keeping shrinkage to a minimum.

So we have developed our own cleaning methods, and we have received great results!

We are also able to offer curtain pick up and delivery. We have the ability to get your curtains clean with our no hassle agents service. From there it's all about the tough love.

We aim for just five days for your curtains to be returned to you looking cleaner, brighter and mould-free- (and still the same size!)

BEFORE

AFTER

For those sensitive and difficult jobs

Innovative Solutions

The qualified Pure Services team are available 24/7 to restore any environment in the most professional and discrete manner possible.

Our services cover:

- Methamphetamine decontamination
- Crime scene & trauma clean up
- Mould remediation
- Odour removal

Crime scene & trauma clean-ups

Accidents or deaths of friends, family or known persons can be a tough and traumatic time, wherein, the need for sensitivity is paramount.

We Specialise In:

- Crime and trauma scene cleaning and decontamination
- Gross filth cleaning and sanitising
- Unattended death and suicide cleaning
- Hoarder and extreme mess clean up
- Sewage back up and contamination cleaning and sanitising.

Make mould removal a priority

Mould is a real problem and needs to be treated properly. At Pure Services we have fully trained and certified technicians who can remediate and banish all types of mould from your home or property safely and efficiently.

We are experts at cleaning mould internally and externally from paths, walls, window sills and other surfaces, all without damaging the paintwork or surface underneath.

Our products are kind to the environment, and leave behind no harmful residues so they are safe for your family and pets.

Mould and health

Mould isn't just an unsightly problem – it's a serious health risk and the effects can be both quite subtle or can be extremely severe. It can aggravate and even cause respiratory problems including nasal and sinus congestion, coughing and wheezing and Asthma, as well as; headaches, eye and vision problems, skin irritations and rashes, fatigue and immune system depletion. Young children, elderly, people with asthma and allergies, or people with compromised immune systems are particularly at risk of developing mould-related health complications.

Watch out for toxic black mould

Toxic black mould or black mould is one of the most infamous and common toxic moulds because it can grow very quickly in houses and is **EXTREMELY DANGEROUS** to humans. Black mould is commonly found in dark, damp areas of the home and should be properly eliminated, not just bleached.

Ensure your property is safe from meth (P)

Methamphetamine (P) contamination in the home is a serious yet ever increasing issue that has damaging effects on your property and the well-being of those in it. Scarily enough – the side effects of Meth being present in a home will always be there until the site is decontaminated.

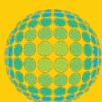

Pure Services accredited and experienced bio hazard team can professionally clean and decontaminate any housing environment and bring it back to a safe level.

We guarantee all our work and will not give up until your property is decontaminated and safe to occupy again.

If you are concerned about your property please talk to our experts in this field.

Could my property be contaminated?

In New Zealand the most common place to find a meth lab is in rental or government housing and anywhere people can move from quickly if needed.

IICRC
Institute of Inspection Cleaning
and Restoration Certification

Implications from meth in a home

The side effects of meth being present in a property is felt long after the drug has been created or used and the possibility of being indirectly affected is highly likely.

- Headaches and migraines
- Dizziness
- Skin irritation
- Potential to cause birth defects
- Behaviour and neurological disorders in children
- Respiratory and breathing problems
- Even, cancer.

Signs that could indicate a current meth lab:

- Curtains always closed
- Darkened windows
- People always coming and going
- Strange chemical smells
- Evidence of a chemical waste dump, such as burn pits or empty chemical bottles.

Jibbi Hire

The Jibbi 1250 EVO is a telescopic boom lift that operates on tough terrain and levels automatically on steep slopes. Ideal for two operators, this lift reaches a platform height of 10.2 metres and holds 230kg lift capacity. The Jibbi has a positive impact on the environment as it is powered by a high performance 19.2hp 3-cylinder diesel engine which provides substantial power when you need it most while reducing emissions.

Many of the Jibbi's resourceful features include a retractable undercarriage and a detachable basket allowing it to be easily transported and allowing access of tight workspaces. An integrated drive system with joystick controls is another feature of the Jibbi's controller. The feature contains an inbuilt 4.3-inch colour display which enhances the operator's comfort. The Jibbi 1250 EVO is also useful for many applications including construction, signage, electrical, painting, agriculture and facility maintenance.

Pure Services currently provide Jibbi Hire services only in the lower South Island.

Why hire a Jibbi?

Being able to work on steep slopes and inclines

A Jibbi allows you to work on steep slopes and inclines with a gradeability and side slope of 25°, such as car park ramps and steep driveways.

Unlike other machines that can only travel across rather than work on such inclines, the Jibbi securely self-levels, with longitudinal and lateral levelling of +/- 15° and mix levelling of +/- 22°. This allows the Jibbi to securely lift up when on such angles.

Travel on varying ground conditions

The Jibbi's challenging terrain tracks lets you move through rough ground conditions and uneven surfaces allowing you to move through your job site easily.

Compact size

The Jibbi is conveniently compact. The tracks can be retracted into an overall width of just 1.15m. If you need to get through a narrow pathway. This makes it easier to move onsite.

Acoustic alarm warning for approaching vertical obstacles

To move safely whilst in the basket, the Jibbi has an added safety feature. Its loud safety warning alarm alerts you when approaching vertical obstacles.

**24/7 we are here to help you deal
with whatever type of cleaning problem
you have.**
