

Pest Control Information Sheet

Preparation for internal treatments only:

1. All people & pets to vacate the property for 3-4 hours after completion and during completion of application or as advised by the technician.
2. Put food, utensils & pet bowls away.
3. Put away towels, face cloths, tissues, toothbrushes & toilet paper.
4. Cover pillows with the quilt if the bedrooms are being treated.
5. Cover baby`s cot, furniture & and anything that goes in the mouth.
6. **Spider, Ants & Flies** – Clear window sills, we use water based products that can sometimes stain walls or ceilings if they are dirty. You may wish to clean these areas prior to the treatment.
7. **Cockroaches** – The usual treatment is a baiting program combined with a spray, and dusting treatment to specific areas. It is beneficial that you have available a specimen of the cockroach to be identified by the Technician before the treatment is undertaken.
8. **Carpet Beetle** – Allow for the whole floor area to be treated including under beds. (You don't need to move furniture)
9. **Fleas & carpet dwelling insects** – Make all the floor area accessible, wash bedding.
10. **Silver fish** – Allow for the edges of the floor to be treated

Preparation for subfloor or roof space treatments only:

1. All people & pets to vacate the property for 3-4 hours after completion and during completion of application or as advised by the technician.

What to expect post internal treatment

Because we only apply the correct amount of product to the right areas you may not notice results straight way, it might take several days to 2 weeks to be completely pest free.

When you return to the property:

1. Ventilate all treated areas.
2. Clean & vacuum dead insects.
3. If you have had a Flea or carpet beetle treatment refrain from vacuuming for 4 – 5 days.

4. Do not clean treated surfaces with cleaning products for 2 weeks use water instead.
If you have the windows cleaned please just use water and try to avoid the frames.
5. Do not remove any treated spider webbing for 14 days.

If you require any more information please give us a call.

We look forward to taking care of all your Pest Management needs.
